Pharmacovigilance Programme of India (PvPI)

CME on Pharmacovigilance

27th May 2017

Amala Institute of Medical Sciences
Thrissur - 680555, Kerala

Organized by
Department of Clinical Pharmacy
JSS Medical College & Hospital
Regional Training Center, PvPI
Mysuru - 570004, Karnataka

In collaboration with
Department of Pharmacology
Amala Institute of Medical Sciences
Thrissur - 680555, Kerala
Pharmacovigilance Programme of India (PvPI)

The Central Drugs Standard Control Organization (CDSCO), under aegis of Ministry of Health & Family Welfare, Government of India initiated a national pharmacovigilance programme in July 2010 with a mission to safeguard the health of the Indian population by ensuring that the benefit from use of medicines outweighs the risks. Adverse Drug Reactions (ADRs) are reported from all over the country to the National Coordinating Center - NCC-PvPI, which collaborates with the World Health Organisation - Uppsala Monitoring Centre (WHO-UMC), Sweden to contribute in the global ADRs database. NCC-PvPI monitors the ADRs among Indian population and helps the regulatory authority of India (CDSCO) in implementing policies for the safe use of medicines.

JSS Medical College and Hospital

JSS University offers graduate, post-graduate and research programs in the fields of medical, dental and pharmaceutical sciences. JSS Mahavidyapeetha, sponsoring society of JSS University is one of the largest education provider and employer in the region. In addition to being committed towards disseminating high quality professional education, the University is also involved in creating applicable knowledge to support social and economical advancement. The Department of Clinical Pharmacy at JSS Medical College and Hospital, Mysuru is the Regional Training Centre of PvPI for the states of Karnataka, Kerala, Tamil Nadu and the Union Territory of Puducherry. It has been actively involved in the building up and advocacy of the Pharmacovigilance Programme of India through involvement in teaching, training, research and its association with WHO-UMC for over two decades.

Amala Institute of Medical Sciences

Amala Institute of Medical Sciences, established in 1978 as Amala Cancer Hospital is a reputed health care facility in Kerala conducting undergraduate (MBBS), post graduate (Diploma/MD/MS) and super specialty (DM/MCh) courses in modern medicine. The campus is also home to Amala Cancer Research Centre (offering PhD courses affiliated to Mahatma Gandhi University and Kerala University of Health Sciences), Amala College of Nursing and Research Centre (BSc and MSc courses), an NABH accredited Amala Ayurvedic Research Centre, Amala Homeopathic Hospital and an establishment for paramedical courses (MLT, BSS). The Adverse Drug Reaction Monitoring Centre (AMC) at the institute coordinates educational and research activities pertaining to detection and causality assessment of Adverse Drug Reactions, besides, reporting to Pharmacovigilance Programme of India (PvPI) through Vigiflow.
The programme intends to widely propagate an effective and sustainable ADR monitoring system by fostering a culture of reporting among doctors, dentists, nurses and pharmacists and through building an effective pharmacovigilance network in the country.
